Dear Demetris,

Many thanks for your enquiry about Dawsonera, our eBook platform.

I have attached some information which I hope will help explain the platform. Key points to note:

- Dawsonera is a book-by-book purchase model, with no bundles or book packages – you only purchase what you need
- There are no platform fees, hosting charges, annual fees or subscriptions
- Books are purchased once and you have perpetual access
- No minimum order quantity
- Risk free and build the collection at your required pace and to your needs
- 30 day free trial available

I would be happy to answer any questions you may have, and if you suggest a suitable time I will happily call you to discuss the platform further.

Kind regards
Keith
