Reply to the External Evaluation Report of the Program of Study

“B.A. POLICE MANAGEMENT
(4 Years, Plus an Optional Foundation Year/240 ECTS, Bachelor of Arts)”

CDA College would like to express its appreciation and gratitude to the External Evaluation Committee (EEC) of the methodical and very detailed report of our programme. The College continuously tries to improve the educational standards and makes every effort to meet the requirements and standards set by the relevant law of Higher Education and the Cyprus Agency of Quality Assurance and Accreditation of Higher Education (DIPAE).

During the visit on 6th July 2017, the College has welcomed the External Evaluation Committee (EEC), and provided every support and assistance to simplify their work.

Despite the economic crisis, the College has not stopped expanding and investing in new Programs of Study and equipment. What is more important is that CDA College makes every effort to provide financial and educational support as to motivate the Faculty Staff to undertake research. Moreover, the continuous upgrading of the computer laboratories with the latest leading-edge technology and the updating of the Library with new editions of books and data banks, and other facilities are some of the efforts which the CDA College makes so as to provide to students high levels of education standards and help them to gain the most benefit during their studies at CDA College.

The Council and the Academic Committee of CDA College, at their meeting held on 03 July 2017, after a thorough discussion with the coordinator of the Program of Study, “BA Police Management” and the Academic Staff of the Program, have decided and have already fully implemented the suggestions recommended by the EEC as to further strengthen the College's Program of Study and Educational Standards.

QUALITY STANDARDS AND INDICATORS

1. EFFECTIVENESS OF THE TEACHING WORK – AVAILABLE RESOURCES

1.1 Organization of teaching work.

1.1.3.5 The procedures for the conduct and the format of the examinations and for student assessment.

- Currently, at the College there is a procedure for peer review of examination papers before taken by students. Additionally, the same procedure exists to ensure that the mark awarded reflects the quality of the answers given by students. This is already applied in the College in other accredited programs of study.

- The Program does not undertake any practical training; however, the College will introduce job internships within the curriculum either at the Police Headquarters or the state prisons so as to reinforce the students’ training on policing.
1.2 Teaching

No Comment

1.3 Teaching Personnel

1.3.2.2 Publications within the discipline

The program BA Police Management has not yet started that’s why there are not enough publications on this discipline. The College has all the necessary Research Mechanisms and criteria which will help the lecturers after the accreditation of the program to engage in more research on this specific discipline. For this reason, CDA College encourages Academic Staff to attend seminars and undertake more research activities. That’s why the College has created this year (2016) the Aristotelis Research Centre in order to enhance research activities of all programs. Additionally, the College has set up a new upgraded research policy which promotes and encourages research incentives such as reducing teaching hours, paying hours spent for research, obtaining a PhD, etc., which will contribute to further strengthening the research activities of lecturers and of the college in general. The new employed lecturers have also a plethora of research activities and publications which will further reinforce the discipline. (Attachments 1, 2 & 3).

1.3.3 & 1.3.4 Visiting professors and special teaching personnel.

The College has already given to EEC a list of the visiting lecturers we intend to invite as soon as the program is accredited. We have already prepared a list with names of Visiting Professors and Special Teaching Personnel whose professional experience and academic knowledge and qualification on the specific discipline would strengthen the Program of Study as soon as it starts operating. However, in order to further reinforce the program with expert knowledge and experience, the College has already sign an agreement with Dr. Konstantinos Douvlis PhD Sociology of Policing, MA Criminal Justice, BA Anthropology/Sociology (Attachment 4).

1.3.9 Teaching load.

The College has immediately implemented EEC suggestion to employ more staff on the area of CRM Criminology and we have employed another Three (3) qualified lecturers, Dr Aristoniki Theodosiou, PhD Psychology, MSc Finance & Maritime Studies, MSc Psychotherapy, MSc Total Quality Management & Innovative Implementation on Education, PgP Counselling Psychology, Bachelor Psychology. Dr. Charis Kaita, PhD Severe Mental Illness, MSc Criminology & Forensic Psychology, BSc Psychology and Dr. Konstantinos Douvlis, PhD Sociology of Policing, MA Criminal Justice, BA Anthropology/Sociology. Please find here attached the Curriculum vitae and the pre-employment contract of the new lecturers. The current academic staff list consists of: 12 lecturers, of whom 8 are PhD holders, 1 PhD Candidate and 3 holders of Masters. (Attachments 5, 15 & 16)

Concerning the teaching load, as we have already mentioned, the program has not yet started and the teaching hours mentioned would only apply when all eight (8)
semesters and four (4) years will operate simultaneously. You can check the teaching load in the detailed list of lecturers which shows the courses to be taught and the teaching hours of each lecturer per semester. In addition, based on the attached list, it can be seen that, when this program starts running, the teaching load per semester will be very small even if all eight (8) semesters are running. For example, if there are students registered in all 4 years in all 8 semesters the teaching load per semester will be as follows: There would be 4 semesters running during the Fall academic period: 1st, 3rd, 5th, and 7th semester, and then during the Spring academic period: 2nd, 4th, 6th, 8th semester. (Attachment 5).

1.3.11 The program’s Coordinator

As per the EEC findings Mrs. Christina Agathangelou is fully qualified for the specific Program of Study but she lacks of experience at academic leadership role. That’s why the College immediately has fulfilled EEC suggestion and has assigned Dr. Pavlos Panayi, an experienced professor, to assist Mrs. Agathangelou in her role as a coordinator of the program. In addition, Mrs. Christina Agathangelou is currently preparing her PhD proposal on Criminology.

2. THE PROGRAM OF STUDY AND HIGHER EDUCATION QUALIFICATIONS

2.1.6 The learning process and the expected learning outcomes

As we would mention in 2.2 further down, the College has fully implemented the EEC suggestions and we have introduced some modules specifically designed to reinforce the Program of Study and fulfil its purpose. The new modules are:

- CRM103 Victimology (Attachment 6)
- POL102 Communication Skills for Police Personnel (Attachment 7)
- POL103 Policing & Police Powers (Attachment 8)
- MTH102 Statistics II (Attachment 9)
- CRM205 Criminal Investigation (Attachment 10)
- POL210 Police Psychology (Attachment 11)
- CRM461 Terrorism (Attachment 12)

2.2 Structure and Content of the Program of Study.

2.2.3, 2.2.6 and 2.2.7 The program of study is structured in a consistent manner, the content of courses and modules are sufficient for the achievement of learning outcomes.

As we have already mentioned in 2.1.6 above, the College has already implemented the EEC suggestions and we have introduced several modules to reinforce the program. The addition of these modules will definitely strengthen the program’s purpose and learning outcomes. (Attachment13).

3. RESEARCH WORK AND SYNERGIES WITH TEACHING

3.1 Research – Teaching Synergies.

3.1.4 The results of the academic personnel’s research activity published in international journals

As we have already mentioned, there is not enough research on this discipline since the program BA Police Management has not started yet. What is more important is that the College has already reinforced the research activities of the program with the employment of 3 new qualified lecturers with a lot of research and publications activities who will strengthen the teaching team and the two core fields of the program. Furthermore, the College has already set all the research mechanisms and incentives to reinforce research activities in the area of Police Management which will help after the accreditation of the program to engage in more research on this specific discipline. (Attachments 1, 2, & 3).

Additionally, with the creation of the Aristotelis Research Center, lecturers will increase their research activities by participating in international conferences, submitting research papers to international journals and exchanging know-how within European and other programs and collaborating with other Universities. The College has already concluded several collaborations with other EU universities within the ERASMUS+ program. Furthermore, CDA College has also engaged a recent research collaboration for EU funding programs with TEPAK University and the Cyprus Center for Environmental Research and Education (CY.C.E.R.E).

Additionally, CDA College has had another European collaboration with 3 partners, the ATEI Technical University from Salonica Greece and a Polish University in developing a new mundus master program which would be EU funded. (Attachment 2 & 3).

3.1.5 External, non-governmental, and internal research funding.

There is no research funding from external or governmental bodies. There is only an internal funding where the amount has been increased to €100,000 per year. Additionally, the College has already set up attractive research incentives to encourage more research activities by the academic staff. (Attachment 1).

3.1.9 Participation of students, academic, teaching & administrative personnel in research activities and students research training.

As it has already been mentioned, the program would definitely be improved with its commencement. The employment of the three qualified professors would not only
reinforce the Academic Staff but also the whole Program of Study. Moreover, the encouragement of the academics through the new research incentives to participate in various research projects and increase their research/publication activities would make the Program of Study stronger. Additionally, the students’ participation will also be reinforced especially in the last semester of the 4th year, when they will be dynamically engaged in empirical research activities and internships in local organizations since they should undertake a research project in order to graduate. Furthermore, final year students should have to work closely with an organization in the relevant policing & criminology sector so as to complete their final thesis.

4. ADMINISTRATION SERVICES, STUDENT WELFARE AND SUPPORT OF TEACHING WORK

4.3 Financial Resources

4.3.1 The management and Allocation of financial resources

Since it is a privately-owned College, the Board of Directors is responsible for the allocation of financial resources. Thus, the academic freedom is not restricted since all the Directors of each academic department send a formal financial request to the College’s Board and the Board grants its approval for the benefit of the College.

As per the feasibility study which had already been given to the EEC and after studying all the following markets and financial issues, the program would be financially feasible and profitable and would enhance the academic standards in Limassol. The following markets and financial issues were taken into consideration: Current Situation and Market Opportunities, Model of Business, Target Market - The Potential Students, The Market Competition, The Competitive Advantage of CDA College, Financial Analysis, Proposed Number of Students, Minimum Number of Students: 8 students, Financial Adequacy - Cash Flow Statement, Employability Opportunities of the Graduates and 5 year Financial projections which show that the program will be financially feasible and profitable and will enhance the academic standards in Limassol. In addition, Mrs. Christina Agathangelou is currently preparing her PhD proposal on Criminology.
D. Research

3.1.4 The results of the academic personnel's research activity published in international journals

As we have already mentioned, there is not enough research on this discipline since the program BA Police Management has not started yet. E. Continuing professional development

The College strongly encourage all the academic staff to enrich their continuing professional development. That’s the College has set up the necessary Research Mechanisms and criteria which would help after the accreditation of the program to engage in more research and participation in specific professional development seminars in the discipline of policing and criminology. For this reason, CDA College encourages Academic Staff to attend seminars and undertake more research activities and participate in the collaboration with other universities abroad. For that reason, The College has created this year (2016) the Aristotelis Research Center in order to enhance research activities and professional development of all programs. F. Finance

4.3.1 The management and Allocation of financial recourses

Since it is a privately - owned College, the Board of Directors is responsible for the allocation of financial recourses. Thus, the academic freedom is not restricted since all the Directors of each academic department send a formal financial request to the College’s Board and the Board grants its approval for the benefit of the College.

As per the feasibility study which had already been given to the EEC and after studying all the following markets and financial issues, the program would be financially feasible and profitable and would enhance the academic standards in Limassol. Finally, the College is grateful for the constructive criticism and suggestions of the EEC for further improvement of the program. The College firmly believes that, with the accreditation of the program, we will have outstanding graduates to strengthen the policing activities of Nicosia and Cyprus in general. Additionally, it will further improve and upgrade the police/security sector and the College will be able to offer high quality policing educational services for the benefit of the graduates and the local society in general.

Sincerely

As learned and humane folks they should remember that the public might judge their profession and their institution by their utterances. Hence, they will at all times be accurate, exercise appropriate restraint, show respect for the opinions of others, and make effort to indicate that they are not speaking for the institution.
