

REPUBLIC OF CYPRUS

The present document has been prepared within the framework of the authority and competencies of the Cyprus Agency of Quality Assurance and Accreditation in Higher Education, according to the provisions of the "Quality Assurance and Accreditation of Higher Education and the Establishment and Operation of an Agency on Related Matters Laws" of 2015 to 2021 [L.136(I)/2015 – L.132(I)/2021].

A. Guidelines on content and structure of the report

- The Higher Education Institution (HEI) based on the External Evaluation Committee's (EEC's) evaluation report (Doc.300.1.1 or 300.1.1/1 or 300.1.1/2 or 300.1.1/3 or 300.1.1/4) must justify whether actions have been taken in improving the quality of the programme of study in each assessment area. The answers' documentation should be brief and accurate and supported by the relevant documentation. Referral to annexes should be made only when necessary.
- In particular, under each assessment area and by using the 2nd column of each table, the HEI must respond on the following:
 - the areas of improvement and recommendations of the EEC
 - the conclusions and final remarks noted by the EEC
- The institution should respond to the EEC comments, in the designated area next each comment. The comments of the EEC should be copied from the EEC report <u>without any interference</u> in the content.
- In case of annexes, those should be attached and sent on separate document(s). Each document should be in *.pdf format and named as annex1, annex2, etc.

1. Study programme and study programme's design and development *(ESG 1.1, 1.2, 1.7, 1.8, 1.9)*

The comments of the EEC are very positive and the 1st section "Study programme and study programme's design and development" is evaluated as Compliant by the EEC.

Areas of improvement and recommendations by EEC	Actions Taken by the Institution	For Official Use ONLY
Reconsider some of the subject titles and content to better reflect current trends and demands. For example, Tourism Information Systems, Travel Writing, Communication. Key contemporary terminologies relevant to the sector should be included: 'sustainability', 'Tourist experience', 'UN SDGs' 'e-Tourism' etc.	Following the suggestions and recommendations of the EEC, we have updated the syllabi of the following courses giving emphasis to sustainability and UN SDgs: <i>Travel Writing</i> which changed to <i>English Communication in</i> <i>Tourism, Commercial</i> <i>Correspondence, Tourism</i> <i>Operations Systems</i> which changed to <i>Tourism Information</i> <i>Systems,</i> and <i>Introduction to</i> <i>Tourism.</i> All adjustments are shown in red color in Annex 1	Choose level of compliance:
The role of technology and tourism as well as Sustainability should be re-visited in the curriculum.	Tourism Innovation Technology, Sustainability and Creativity - a global perspective on how the tourism industry is changing and taking advantage of emerging technologies, which will help them to foresee potential changes in the industry and plan for the future. Tourism innovation is defined as innovating in a cost-efficient manner by taking into account the available resources. Although a lot of the current syllabi already refers to Sustainability , for example the module <i>Tourism Planning & Development</i> we have intensified the presence of the notion further. In addition, lecturers before the beginning of an	Choose level of compliance:

CYQAA CYPRUS AGENCY OF QUALITY ASSURANCE AND ACCREDITATION IN HIGHER EDUCATION

eqar/// enga.

	academic semester meet and discuss any changes or trends that affect the travel industry and come to a mutual decision as what to include in their lectures over and above the syllabi so as to be an alignment with the international tourism environment.	
	The College also organizes seminars and educational fields so as the students to be familiar with new trends and technology.	
Ensure that the literature is up to date and represents current practices.	Following the comments of the EEC we have already proceeded with the order of more updated literature. See Annex 2	Choose level of compliance:
In accordance to the above, 'Information Management' 1.4, the following information could be made more readily accessible and monitored: (i) key performance indicators, (ii) profile of the student population, (iii) student progression, success and drop-out-rates (iv) graduate employment information.	Key Performance Indicators (KPIs) are performance metrics that can be tracked, measured and analyzed. CDA College uses KPIs to understand how a program, department, course or a student is progressing toward their goals. KPIs are the tools to understand and measure the success of the College. Furthermore, these KPIs help the College to monitor and evaluate how well they're performing, and direct their policy formulation and target setting.	Choose level of compliance:
	C.D.A College has already established KPIs which are extensively evaluated by the Administration of the College. The KPIs at C.D.A College are measured through: - students' evaluation form (the students are asked at the end of the semester or the academic year to evaluate their teacher & administrative staff such as the

CDA College Information	
Management	
CDA College strongly believes in	
transparency and that is why all- important information is	
published on our website as well	
as in the College Prospectus	
(yearly approved by the Ministry	
of Education) and is accessible by	
everybody. For example, on our	
website (<u>Homepage - CDA College</u>)	
someone can find all information	
concerning our Programs of Study	
such as learning outcomes,	
structure of a program, academic	
staff etc.	
Also, Moodle (<u>CDA College: Log in</u>	
to the site) and its Addons are	
extensively used by students and	
academic staff.	
Alumni (graduata	
Alumni (graduate	
employment information): Our website also provides	
website also provides information to all graduates

eqar/// enga.

Association upon its graduation from the College. Alumni members can receive, if given permission receive promotion material, job vacancies and the newsletter of the college. Alumni records are kept by the College and are use in statistics and surveys. Our Alumni records in all branches are updated every five years. It is important for us to keep in touch with our graduates inform and be of their professional achievements. The success of the College lies behind the employability rates of its graduates.

Profile

of the student population: The College keeps separate records for all its students. Upon their registration, students complete a number of forms and give us the permission to access their personal data and information. The Ministry Education of conducts every year statistics on the profile of the student population and specific data are asked such as gender, religion, marital status, academic level etc. and we as college we have to submit all these information to the Ministry. Furthermore, it is important for academic an institution to know the profile of its student population so as to face any problems and difficulties might come across.

Student progression, success and drop-out-rates: Another important aspect that we take into consideration is the drop out & passing rates. Records are kept СУДАА

CYQAA CYPRUS AGENCY OF QUALITY ASSURANCE AND ACCREDITATION IN HIGHER EDUCATION

eqar/// enga.

Teaching faculty should meet and exchange their teaching material in a required and structured approach.	Directors etc. so as to help the front-line employees to deal with any incident that takes at the College and for them to be able to organize their workload. Our college has an in-house psychologist and he is available to all students and staff (academic and administrative) either with online sessions or with physical presence. Teaching faculty meets three times every semester (before the beginning, in the middle and at the end of the semester) and they discuss any problems that might appear and exchange ideas and suggestions. Also, there is a Department of Travel and Tourism meets and discusses any issues concerning their department, students' progression, assessment methods, syllabus etc. Moreover, the Moodle platform and more specifically the addon "MyCDACommunity" gives us the opportunity to communicate with colleagues at any time. Because the accredited programs are the same in all campuses, we all have a common syllabus. If there is room for update, we discuss it amongst us and proceed with the update of the syllabus. We are only allowed by the Agency a 10% change on syllabus without reporting back. If we would like to make more than 10% changes, we have to send it to the Agency for approval or wait until the next accreditation.	Choose level of compliance:
---	--	-----------------------------

نۇ 🕑 يە

Training on newer technology, AI and tools that are more up to date should be facilitated.	All Staff, faculty and academic staff is encouraged to attend seminars on newer technology and trends. The College funds the attendance of its staff to these seminars. Some of the latest seminars that our staff has attended are: "Effective Content Marketing: Creating Trusted Brands Through Storytelling" "Digital Advertising Methodologies & Techniques to Increase Company Sales"	Choose level of compliance:
--	---	-----------------------------

3. Teaching staff

(ESG 1.5)

The comments of the EEC are very positive and the **3rd section "Teaching Staff"** is evaluated as Compliant by the EEC.

Areas of improvement and recommendations by EEC	Actions Taken by the Institution	For Official Use ONLY
The colleges should build communities of practice across their campus locations to share ideas and resources. This would ensure common standards of assessment.	The Management of the College encourages the cooperation between its four branches. Academic staff of all specialties arrange meetings so as to share notes and new teaching methods.	Choose level of compliance:
	Also, the Moodle platform and more specifically the addon "MyCDACommunity" gives us the opportunity to communicate with colleagues at any time. Because the accredited programs are the same in all campuses, we all have a common syllabus. If there is room for update, we discuss it amongst us and proceed with the update of the syllabus. We are only allowed by the Agency a 10% change on syllabus without reporting back. If we would like to make more than 10% changes, we have to send it to the Agency for approval or wait until the next accreditation.	
	Even the assessment methods have common standards in all campuses so as to have uniformity. for example, all	
	courses would have a mid-term examination, give a percentage for class participation, have the students to prepare a small project. However, assessment methods can vary due to the	
	nature of each module. But what is more important it is that all	

CYQAA CYPRUS AGENCY OF QUALITY ASSURANCE AND ACCREDITATION IN HIGHER EDUCATION

eqar/// enga.

Ś

	lecturers discuss between them	
	and decide on common	
	assessment methods and	
	techniques. Of course, the	
	Internal Committee is always	
	willing to help and assist all	
	lecturers in any way possible.	
	Except the departmental	
	meetings, twice a year we have a	
	general meeting which gives us	
	the opportunity to see all our	
	colleagues.	
The college should build on	In our college, there is an Erasmus	Choose level of compliance:

	not only our students but our college in general. It is also important to note that we have just been awarded a new funding for Erasmus mobilities for the next academic year. Please See Annex 3 for all Erasmus Actions.	
Faculty should monitor industry development but at the same time they should monitor current findings by academics. This should inform their teaching to stay ahead of trends.	CDA College established closer links between the institution and the industry such as hotels, travel agencies etc. In the specific program, the majority of the academic faculty are linked to the travel industry. Some of them used to work or are still working in well-known travel agencies or hotel units of the island. Thus, their professional expertise allows them to monitor industry developments and then present them in their classes. Moreover, it provides vital insights and awareness of professional career opportunities and job vacancies locally and abroad. This is a vital stepping stone in enhancing the relations of the College and its students with businesses. Faculty members are also encouraging to attend seminars and monitor current findings by academics so as to stay ahead of trends. We have collaboration with Sabre and recently with Amadeus in offering extra training and seminars to our lecturers and students and thus	Choose level of compliance:

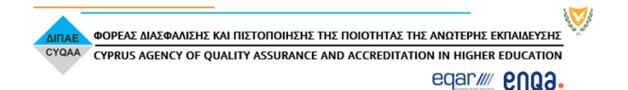

СУДАА

Annex 3

ERASMUS+ and International Agreements

In our College, there is an Erasmus office, whose coordinator is Ms. Christina Agathangelou and there are Erasmus officers in all our branches. There has been a transformation of the Erasmus since 2021 and has been integrated with our "Aristotle" Research Center. These two offices work together perfectly and have already submitted several programs through Erasmus + and we await responses.

C.D.A College took part in the "Social Entrepreneurship to battle Youth Social Exclusion - SENEET (2019-1-EL02-KA205-004798)".

According to the EU SPC's (2017), there has been no improvement in the social conditions in the EU since 2008, when a lot of member states went through a financial crisis. A particularly vulnerable group in today's economic environment are NEETs, people aged 18-30 who are socially excluded due to low skills, lack of education and unemployment. The aim of the Erasmus+ program entitled "Social Entrepreneurship to battle Youth Social Exclusion" and code 2019-1-EL02-KA205-004798, is to empower young people who face social exclusion due to unemployment, giving them the opportunity to acquire the necessary skills and knowledge in social entrepreneurship, the development of their business ideas, as well as the Internet and social media to promote their businesses. The coordinator of the program was E-School (Greece), and partners were CDA College (Cyprus), KVK (Lithuania), CJRAE Arad (Romania) and Business Incubator - Gotse Delchev. (Bulgaria). The program included 5 LTTAs in each country, and a total of 84 people have participated. The participants, guided by the teachers, created their own virtual social enterprises.

For the Academic year 2021-2022:

• Dr Katalin Kukorelli of University of Dunaujvaros visited our college and had the opportunity to deliver lectures to our students. (STA). The Erasmus office in cooperation with Aristotle Research Centre organized a seminar entitled "Communication & Negotiation Skills". Lead Speaker Dr. Kukorelli (6/5/2022)

- 6 (STT) from Radom Academy of Economics in May to Nicosia.
- 6 κατάρτιση (STT) From University of Oradea in May in Larnaca.
- Host LTTA 3 "Business Start-Up and Development" 25 29 October
- partner LTTA 4 "Digital marketing and Social Media in Business Development" Arad, Rumania 22-28 May
- partner LTTA 5 "Presentations of Virtual Businesses" in Karditsa, Greece 17-23 July.

For the Academic year 2022-23:

Host: "Find a job you love and you will never have to work again!" (2020-1-HU01-KA116-078380). Training of students from the department of aesthetics of Szegedi SZC Móravárosi Szakképző Iskola Hungary. (10-21/10/2022).

We have welcomed:

- a student from (SMS) Universite de Bretagne Sud France in the program of study BA Business Administration.
- 2 training mobilities (STT) από το University of Oradea in October in Nicosia

For the Academic year 2023-24:

The Erasmus Office at C.D.A. College has expanded its international partnerships by signing **4 Memorandums** with organizations in Italy, Georgia and Greece. In addition, the college has established **13 Bilateral Agreements with Higher Education** institutions across Europe, including countries such as Latvia, Portugal, Hungary, Poland, Romania and Lithuania.

C.D.A. College is also involved in several ongoing Erasmus+ funded projects. These include the mobility of students in vocational education and training entitled "Enhancing employability through vocational education and training" (KA122-VET), and 2 mobility projects for Higher Education students and staff (KA131-HED and KA171-HED). The latter is implemented in collaboration with the University of Kutaisi in Georgia, highlighting the college's commitment to expanding its educational impact and international cooperation.

C.D.A. College continues to strengthen its international presence and educational impact through the Erasmus+ program, with a particular emphasis on implementing educational mobilities. The college has hosted specific vocational and educational training (VET) initiatives from Hungary and Greece, as well as adult education mobilities from Greece. These activities highlight the college's

commitment to improving skills and learning opportunities in various educational fields, such as the seminar on "ChatGPT in Education".

In its ongoing effort to expand its educational reach and innovation, C.D.A. College has participated in the Erasmus+ sub-programme, Alliances for Education and Business (Lot 1), under the call for Partnerships for Innovation - Alliances (ERASMUS-EDU-2024-PI-ALL-INNO) with funding of 1.5 Million Euros. As a partner in the project entitled "Care 4.0 Skills", the college is at the forefront of the integration of advanced technology in the care sector. The "Care 4.0 Skills" project is designed to equip care sector staff with critical skills for the use of Industry 4.0 technologies, thus enhancing efficiency and innovation in care services. In addition, the project aims to create sustainable Ecosystems focused on skills anticipation, skills matching and continuous professional development. It also seeks to create Living Labs that promote research and innovation in the care sector. Through these initiatives, C.D.A. College contributes not only to the immediate needs of the care sector but also ensures the long-term development of a trained workforce that is prepared to face future challenges and advances in the sector.

C.D.A. College has also submitted a project proposal as a partner to KA2 for funding of 400,000 euros entitled "ASTRAIA". The aim of the project is to develop an educational model in the field of circular economy for business and management students. The purpose of this project is to respond to the growing need for education in the circular economy, especially for the part of the population that will have a direct impact on the sector (business and management students). At the same time, it is intended to reflect the need for sustainability in the sense of approaching the goals set by the United Nations: the 17 Sustainable Development Goals.

C.D.A. College hosted an Erasmus+ mobility program from Hungary for 2 weeks. The students participated in courses and workshops organized by the college.

An Erasmus+ project titled "ICT Skills for Educators" took place at C.D.A. College in Cyprus from April 27th to May 8th, 2024. This program aimed to equip teachers from a Vocational upper secondary school with the skills needed to digitally transform their classrooms. Experts led sessions on integrating technology into teaching, using AI tools like ChatGPT for engaging content and personalized learning, and ensuring digital safety in educational settings. This project helps educators prepare VET schools for the digital age.

As part of a Higher Education project, two outgoing staff training mobilities were organized to the Center for Mental and Psychological Support in Koridallos, Greece, and two staff members participated in a training mobility at HumaCapiAct in Turin, Italy. One of the main objectives of the outgoing staff training mobilities was to explore opportunities for collaboration and

partnership, enhance staff skills, and exchange specialized knowledge between C.D.A. College and the receiving organizations.

C.D.A. College sent 27 students to Heraklion, Crete for a 2-week Erasmus+ VET mobility program focused on employability skills. Students participated in seminars on topics like Youth Entrepreneurship, Customer Relations, Crisis Management, Marketing & Communication. These seminars were complemented by hands-on internships at local businesses. The program also offered cultural immersion and networking opportunities. Students returned with enhanced skills, confidence, and a global perspective. C.D.A. College highlights this program's success and commitment to providing international learning opportunities for its students.

We have welcomed:

- 2 students from Newton University in Czech Republic in the program of study BA Business Administration
- 18 academic and non-academic staff for training

European and International Collaborations

C.D.A. College has recently signed a memorandum of understanding with several esteemed European and international institutions and organizations, marking a significant step in enhancing its academic and research collaborations. These partners include:

- 1. HumaCapiAct in Italy, JOIST in Greece
- 2. Learning Detrous V.A. in Cyprus
- 3. Erasmus Learn in Crete
- 4. Kutaisi University in Georgia
- 5. European Nations Campus, a higher institution in Sri Lanka

These agreements aim to foster cooperation in education, research, and cultural exchange, thereby enriching the academic experiences and opportunities for students and faculty across all participating institutions.
