The EEC has taken, very seriously, into account the Ledra College's analytical reply to its initial evaluation report, as proven by the EEC feedback report.

Indeed, there are several points- issues that are adequately addressed, as already highlighted in the EEC Feedback Report.

However, there are still remaining issues- challenges to be further addressed, as again highlighted and documented in the EEC Feedback report and in the relevant EEC recommendations.

Thus, we fully agree with the CYQAA Council's formal reply to the Ledra College (dated 8/2/21), that reflects all the key points of the EEC feedback report.
