

DECLARATION

I am aware that according to the Aliens and Immigration law N7(i)/2019 in Cyprus:

- Students are allowed to work to specific occupations and economic activities under specific terms and conditions. Occupations and economic activities covered are shown in detail in the Order issued by the Minister of Labour. Typical occupations included are the following:
 1. Petrol-station attendants and car wash attendants
 2. Care givers in homes
 3. Workers in agriculture/farming, fishing and bakeries
 4. Fast-food delivery drivers
- The maximum number of hours that a student is allowed to work is 20 per week. During vacations students are allowed to work 38 hours per week.
- Students should first get a student permit from the Immigration Authorities. They should then sign a contract of employment with a specific employer, which includes the main terms of employment and the study program of the student and then submit it to a District Labour Office for approval. The Labour Office will check the main conditions and if satisfied will approve the contract.
- Students who have completed their studies or interrupted them or have completed the expected duration of studies are obliged to depart from Cyprus
