A. Guidelines on content and structure of the report

- The Higher Education Institution (HEI) based on the External Evaluation Committee’s (EEC’s) evaluation report (Doc.300.1.1) must justify whether actions have been taken in improving the quality of the programme of study in each assessment area.

- In particular, under each assessment area, the HEI must respond on, without changing the format of the report:
  - the findings, strengths, areas of improvement and recommendations of the EEC
  - the deficiencies noted under the quality indicators (criteria)
  - the conclusions and final remarks noted by the EEC

- The HEI’s response must follow below the EEC’s comments, which must be copied from the external evaluation report (Doc. 300.1.1).

- In case of annexes, those should be attached and sent on a separate document.

B. Conclusions and final remarks

We sincerely thank the External Evaluation Committee (EEC) for the very positive Report that reflects the efforts and considerable investment undertaken by the College to set up this Programme of Study that is extremely useful for the Hospitality Industry.

This effort is related both to the infrastructure as well as to the Human resources.

The College has identified the need for offering this program which combines theoretical and practical education in a domain very crucial for the economy of Cyprus.

We also highlight that students are represented in the: Academic, Faculty / Administrative, Student Affairs, Student Union and Disciplinary Committees, therefore their ‘voice’ is indeed heard and encouraged and through the ‘open doors’ policy and Advisors system students have all the necessary forums to express their opinion, suggestions and concerns. We have adopted the recommendation by the EEC and we have included a Student Feedback and Announcement section in our LMS (a screen shot is attached as Appendix VI).

In conclusion we look forward in receiving the final decision on these programs and we thank again the EEC for the very professional way the Site Visit was conducted.
