It is also noted that the contemporary global higher education environment requires that the provision of programmes and the award of academic degrees meet the strictest quality criteria. These criteria refer to an academic environment that conducts, promotes and utilizes research

in teaching. **Research culture and not just information on contemporary research data is essential in order to offer qualitative graduate and postgraduate programmes.**

The current accreditation begins in the Fall semester of the academic year 2021 – 2022 and ceases to be in effect at the end of the Spring semester of the academic year 2025 – 2026.

On the basis of Article (4) of the relevant Legislation, it is noted that "the above accreditation is valid for the period provided by the provisions of the Law and is repeated every five (5) years and that the procedure starts at the request of the institution which must, and shall be submitted at least sixteen (16) months before the expiry of the previous accreditation".

Additionally, on the basis of Article (17) (3) (f) during the period of validity of the Accreditation, the Agency acting of its own motion, may examine whether the criteria continue to be met and if they are not met, then the Agency shall revoke the Accreditation, and immediately inform the institution concerned.
