The Agency requires the Institution to comply with the following observations within two years and no later than June 2022:

- **Recruit permanent academic staff who will integrate the programme of study during the third year of its offer in the fields of Pure and Applied Mathematics**
- **Provide information on the research orientation of the programme of study, the synergy of research with teaching and students' involvement in research**
- **Find ways of attracting qualified students who will ensure the quality of the programme of study**

The Agency is entitled to request from the Institution evidence and data confirming that the Institution employs permanent academic staff, including evidence of social insurance payments made by the employer.

It is also noted that the contemporary global higher education environment requires that the provision of programmes and the award of academic degrees meet the strictest quality criteria. These criteria refer to an academic environment that conducts, promotes and utilizes research in teaching.

Research culture and not just information on contemporary research data is essential in order to offer qualitative graduate and postgraduate programmes.

The current accreditation begins in the Winter semester of the academic year 2020 – 2021 and ceases to be in effect at the end of the Spring semester of the academic year 2024 – 2025.

On the basis of Article (4) of the relevant Legislation, it is noted that "the above accreditation is valid for the period provided by the provisions of the Law and is repeated every five (5) years and that the procedure starts at the request of the institution which must, and shall be submitted at least sixteen (16) months before the expiry of the previous accreditation".

Additionally, on the basis of Article (17) (3) (f) during the period of validity of the Accreditation, the Agency acting of its own motion, may examine whether the criteria continue to be met and if they are not met, then the Agency shall revoke the Accreditation, and immediately inform the institution concerned.
